Federico Orozco

EAL Educator & EdTech Builder | AI-Powered Systems for Multilingual Learners, Families & Schools
Suzhou, Jiangsu, China

Summary

I help schools design practical AI-supported systems that improve outcomes for multilingual learners and the educators who support them.

With more than 15 years of experience in international education across South Korea and China, my work sits at the intersection of language development, teacher capacity-building, and educational technology.

As an EAL specialist, I focus on transforming complex language-learning frameworks into accessible tools, resources, and systems that help teachers, leaders, students, and families make informed decisions. My work includes designing multilingual support tools, creating AI-enhanced instructional resources, delivering professional learning, and developing frameworks that strengthen collaboration around multilingual learners.

I hold a Master's degree in TEFL, CELTA certification, and an ESOL teaching license from Washington, DC. As a bilingual Spanish-English educator and lifelong language learner, I bring both professional expertise and personal experience to supporting language development across diverse learning contexts.

My current focus is helping schools leverage AI and thoughtful systems design to make language support more accessible, scalable, and effective while reducing complexity for educators and increasing opportunities for students.

Areas of Interest

- Multilingual Learners (MLLs)
- EAL/ESOL Programs
- WIDA Implementation

- AI in Education
- Teacher Professional Learning
- Family Engagement
- Educational Technology
- Inclusive Learning Design

Experience

SSIS | Suzhou Singapore International School

EAL Specialist Teacher

August 2022 - Present (4 years)

Suzhou

Provide individualized and small group English language development support to Grades 4 and 5 ELs of varying proficiency levels.

Closely collaborate with general education teachers to scaffold core content instruction and ensure language objectives are integrated.

Administer language proficiency assessments (e.g. WIDA Screener, ACCESS) and utilize results to inform instruction.

Develop scope and sequences, daily lesson plans, and supplementary materials appropriate for ELs.

Monitor student progress through ongoing formative assessments and adapt instruction accordingly.

Differentiate instruction to accommodate different language, learning styles and cultural backgrounds.

Communicate regularly with families to discuss student goals, performance, and home support strategies.

Participate in professional learning communities and ongoing professional development.

Assist with school-wide EL programming and enhancement efforts.

Perform other duties as assigned related to meeting the needs of ELs.

Kyungbok Elementary
5th Grade English Teacher
March 2019 - February 2022 (3 years)
Seoul, South Korea

Plan and deliver daily English lessons aligned to the national curriculum standards for vocabulary, grammar, reading, writing, speaking, and listening skills.

Use a variety of communicative and task-based teaching methods like projects, debates to actively engage students in practicing English.

Design formative assessments like quizzes, presentations, reflections to monitor progress and tailor instruction to learners' needs and proficiency levels.

Maintain an organized classroom environment conducive to language acquisition with labeled areas, visual aids, clear routines.

Participate in school events and after-school clubs to provide extracurricular English enrichment opportunities.

Build rapport with students and motivate them to see themselves as capable English users.

Attend continuous professional development on the latest TEFL practices and adapting to Korean culture.

Complete administrative tasks like submitting lesson plans, report cards, data tracking.

Seoul Metropolitan Office of Education
Head Teacher Trainer
March 2011 - March 2019 (8 years 1 month)
Gapyeong, Gyeonggi, South Korea

Plan and deliver comprehensive professional development programs to equip Korean English teachers with the latest research-based TEFL methodologies.

Design hands-on workshops that allow teachers to practice new strategies, receive feedback, and collaboratively problem-solve.

Gather observational data on teachers and provide individualized coaching to support their growth goals.

Develop 2 week-long training curricula aligned to teachers' career phases and needs of the diverse students at the Seoul English Education Center.

Mentor new trainer recruits, model excellent facilitation, and provide ongoing mentorship.
